

DRUG DIVERSION & INVESTIGATIVE ANALYSIS

Drug Diversion is the illegal practice of transferring licit drugs for illicit purposes. ARL Bio Pharma is equipped with analytical instrumentation designed to test the most complex of samples. Our investigative services provide additional evidence of drug diversion to help protect healthcare organizations and patients.

ANALYTICAL TESTING SERVICES

IDENTITY CONFIRMATION

CONCENTRATION ANALYSIS

UNKNOWN IDENTIFICATION

ADDITIONAL TESTING SERVICES

Microbial and Particle Contamination may also occur when a drug is diverted due to an unsanitary process and exposure to foreign elements.

STERILITY TESTING

Tests for the presence of viable microorganisms

PARTICLE ANALYSIS

Tests for the presence of nonviable particles.

ARL Bio Pharma, Inc. is a contract research laboratory that provides testing and investigative services to hospitals, health-system pharmacists, nurses, physicians, and patients. We are an FDA registered analytical laboratory and DEA licensed (Schedules I-V). ARL is 17O25:2O17 accredited as applicable to our scope of accreditation.
